## Five of the best

### Bedside tables

*The most reliable night-time companions, with useful storage and space to showcase your bedtime-routine essentials*

**1** Blending Italian craftsmanship with Scandinavian simplicity, this swish bedside table is inspired by a jewellery-making technique where precious gems are 'set' into a frame. Choose from either smoky glass or marble to top the aluminium legs. 'Set' table by Luca Nichetto, £1,085, &Tradition (andtradition.com).

**2** If it's storage you're looking for, Turri's offering is a winner with space on top, on the middle shelf and in the pull-out drawer. Its walnut frame can be dressed up in forest-green or mustard-yellow leather. 'Atelier' bedside table by Matteo Nunziati, £3,888, Turri (turri.it).

**3** Cult Danish homeware and furniture brand Hay's new cabinet is a versatile storage solution that's easy to move around and comes in four pastel colours. Our pick is the sky blue – a perfect antidote to winter mornings. 'Facet' table by Stefan Scholten, from £135, Hay (hay.dk).

**4** You'll have no trouble finding your glasses with this smart bedside table, which has a softly glowing LED lighting system under its top. 'Rialto' bedside table by Giuseppe Bavuso, approx £2,575, Rimadesio (rimadesio.it).

**5** With a hollowed-out middle, handy drawer and softly curving frame crafted from brushed oak wood, this rounded number redefines the aesthetic. 'Tenere' bedside table by Pieter Maes, from approx £4,020, Van Rossum (vanrossum.eu). ▶
